1 attachment

Summary of action items raised during June 8th cafo docket conference call (2).doc

Please see the attached document which contains highlighted updates on 4 of the cases we spoke about during the last status call. If you have additional questions about these cases, please let me know.

Subject: June 8, 2011 CAFO docket conference call summary of action items and proposed response dates:

Before I run off on my vacation until July 13th, attached is a summary of the action items and proposed response dates from the last CAFO docket review. If you have any questions or issues regarding the content in the attachment feel free contact me. There were many important issues to surface during the last call, but two of the most urgent are; CAFO enforcement and litigation training; and the process of initiating a monthly conference call in order to talk and review all CAFO noncompliance since 2009 in accordance with the work plan. I proposed that we have a conversation by July 15, 2011 and think about how we can accomplish this work. Thanks

(See attached file: Summary of action items raised during June 8th cafo docket conference call.doc)
